

**September 30, 2011**

This week, I will let tradition speak for itself through photographs. Rattling is a long time tradition at BA; it bonds the freshmen to seniors and helps new students make friends with upper classmen. Other photographs show the pre-k students, who conducted their first fire drill and reviewed fire safety rules, and SADD Club members, who handed out Smarties to all children buckled up in the pick-up line.

Next week, the pre-k students will show you how they celebrate "Read for the Record", a program in support of early learning for young children.

Left: First Graders answer questions about Fire Safety on Monday while the Lady's Island Fire Station Smoke Trailer came to visit. Right: Mrs. Franks 4<sup>th</sup> grade class waits patiently for their turn in the safety trailer!

SADD President McKenzie Blake hands smarties to Alex and Thomas Mazzeo for being buckled up and safe on their way home from school.

Thank You BA!! We met our goal of 15 units and this is our school record! With this blood we could potentially save 45 lives.
