*Beaufort Academy Year in Review  
and 2014-2015 Annual Report of Giving*

**Dear Beaufort Academy Families,**

As you peruse this report of annual giving, I hope that you will enjoy looking back on our 50<sup>th</sup> year. We had much to celebrate, and I enjoyed all of the events as well as meeting the Beaufort Academy family and connecting the dots among all of our community. As you all know, we have a terrific school community, and we have a fantastic faculty and staff who truly care for and cherish our students. The teachers and students are the heart and soul of the school, and all of their hard work and dedication is the key to our success. Clearly, we could not exist without the great teachers and students, but we also could not exist without the help of our donors and volunteers. On behalf of the school, thank you for your generosity and your support. I look forward to continuing to build relationships with each of you.

Your support helps our students progress through 16 years of education and the formative years of life. We have preschool students learning colors, how to write their names, and how to read their first Dr. Seuss books. Our lower schoolers are learning to multiply numbers, the names of the bones in their bodies and the planets in our solar system, and the value of friendship. The middle school students are learning how to write an organized essay, how to create works of art, how communities and cultures vary and connect, and the value of sportsmanship. In the upper school, our students are learning calculus, the magic of photosynthesis and evolution, how to fire rockets out on the fields, and the value of leadership. It is a source of great satisfaction for me as I witness the smiles on students' faces as they learn a new concept or reach a new goal, the exhausted satisfaction of a hard fought

The Golden Gala

game, or the boost in confidence attained from a hard earned good grade. These milestones remind us all of why we chose the education profession. They have been happening at BA for the past 50 years and will continue for the next 50. I look forward to sharing them with you.

Yours Sincerely,

Stephen Schools, Headmaster
